### Valid Physical Address for e-mail Marketers

Effective January 1, 2004, The Can-Spam Act of 2003 full text here requires that all commercial e-mail carry a valid physical postal address.

(5) INCLUSION OF IDENTIFIER, OPT-OUT PHYSICAL ADDRESS IN COMMERCIAL ELECTRONIC MAIL- (A) It is unlawful for any person to initiate the transmission of any commercial electronic mail message to a protected computer unless the message provides--

- (i) clear and conspicuous identification that the message is an advertisement or solicitation;
- (ii) clear and conspicuous notice of the opportunity under paragraph (3) to decline to receive further commercial electronic mail messages from the sender; and
- (iii) a valid physical postal address of the sender.

It is unlikely that you will ever receive any postal mail yet the law requires you to have a postal address included in your e-mails. To help with this dilemma, Mail Service Center has a special program to provide you with a physical postal address.

**Cost: US\$120 per year**
